## Oase +

Oasis in Danish

## Casa

House in Spanish

**We are  
a conservation  
network using the  
power of web3 for  
regeneration**

# Oasa 2050

## vision

- **100,000 ha in conservation**
- **12 global villages**
- **360 residents at any time**

bookings on chain

Proof  
of  
Presence

governance

impact

?

## legal struct.

Land title

↓ owned by

SPV (local company)

↓ owned by

Swiss Association

↓ controlled by

Local DAO

# Governance.

- A/** 1 DAO per location
- B/** Members of DAO can vote on proposals
- C/** Proof of Presence weights votes
- D/** DAO must abide by the Principles of Regeneration and Land Stewardship

# Conserve 2 Live

By purchasing tokens in DAOs connected to OASA, you finance regeneration of land.

We monitor our forest growth through Open Forest Protocol\*, creating a ledger of natural assets under regenerative management.

As regenerative work takes place, you benefit from better living spaces, better air quality, more water, more biodiversity, more access to untapped creativity, more humans doing the work that makes them thrive.

\* Got a ReFi protocol/nature IOT monitoring/or other experiment we should integrate in our prototype? reach out to [info@oasa.co](mailto:info@oasa.co)

# **From Ownership to Stewardship**

# Principles of Regeneration and Land Stewardship

- 50% of land rewilded
- 5% constructed area max
- harvest rain & restore water cycles
- foster biodiversity
- reduce external inputs & waste

**read more** 

# **Traditional Dream Factory**

The prototype

# Finance

- Raising 500k for phase 1 of work (see roadmap)
- \$TDF starts at 220€
- Total projected cost ~3.5M€

# \$TDF value

- land acquisition
  - construction
  - legal
  - etc
- 3.5M€**

**total projected cost**

---

**total supply**

**15870 \$TDF**

14 suites	2	x 365 nights
3 studios	3	
1 house	5	
3 glamping	1	

# Memberships

- determined by TDF DAO
- vouched by TDF DAO members
- gives access to utility of \$TDF (bookings, governance etc)
- Members can become contributors and earn \$TDF for work

# Future scenarios

## **Growing economy**

More members want to take part in the network - we acquire more lands and develop more housing, and issue more tokens.

## **Shrinking economy**

Spaces are leased out to non-members if occupancy drops, and project can potentially buy back tokens to provide liquidity for members exiting network.

# How to become an OASA village?

Want to start your own village?  
Talk to us, participate in the existing projects.

We will issue a set of guidelines to qualify over the next months.

As a minimum we would expect the village founder to support an existing village for some time to learn, and the land upon which the village is built to follow the Principles of Regeneration and Land Stewardship.

A proposal to add a village can be submitted to the association for consideration.
